Directed by action anthropologist Christoph Borkowsky Akbar, **PIRANHA Musik** has been swimming among the sharks of the music industry since 1987. The Berlin based independent label and music publisher is one of the leading international producers of global-centric music. With more than 100 releases so far it became a tastemaker brand to make you travel with your ears, introducing local stars as well as insider and top tips from Africa, the Orient, Europe, or the Americas to a worldwide, off-mainstream audience. Diversity rules, the world is our culture.

To celebrate **20 years of PIRANHA in 2007**, each month we will release a fresh musical choice - reloading highlights and hidden gems from our repertoire. Each selection is compiled by one of the worldwide DJ-friends of PIRANHA. Beware!, sequencing is important - you can just listen for your pleasure or download the whole thing straight away.

JUBILEE Vol. 6 features Berlin based **DJ SHAZAM!**, at home on the main floor as much as in a lounge situation, always generating a unique vibe around the three capital EEEs Electronic, Eastern & Eclectic. His organic way of mixing electronic breakbeats with musical diversity made him a welcome alternative in many clubs and festivals, both as a DJ and with his live band **NOMAD SOUNDSYSTEM**. As producer & remixer he's also working with New Yorker Adam Chalk in the SPARK project. Always fascinated by complex rhythms, DJ SHAZAM hand-picked the tunes for his PIRANHA **Rhythm Traveller** companion, creating his very own cross-cultural, audio tripping non-stop deejay mix. On board with him are Ali Hassan Kuban, Bantu, Darko Rundek, Emil Zrihan, Fermin Muguruza, Fanfare Ciocarlia and other polyrhythmic voyagers.
