Directed by action anthropologist Christoph Borkowsky Akbar, **PIRANHA Musik** has been swimming among the sharks of the music industry since 1987. The Berlin based independent label and music publisher is one of the leading international producers of global-centric music. With more than 100 releases so far it became a tastemaker brand to make you travel with your ears, introducing local stars as well as insider and top tips from Africa, the Orient, Europe, or the Americas to a worldwide, off-mainstream audience. Diversity rules, the world is our culture.

To celebrate **20 years of PIRANHA in 2007**, each month we will release a fresh musical choice - reloading highlights and hidden gems from our repertoire. Each selection is compiled by one of the worldwide DJ-friends of PIRANHA. Beware!, sequencing is important - you can just listen for your pleasure or download the whole thing straight away.

Arriving in wall-city West Berlin from Ibiza (Rainer) **Kranich** became the last manager of the famous music hall "Quartier Latin" (today: "Wintergarten") and - together with DJ Westbam - a rave pioneer starting "Die Macht der Nacht" ("The might of the night") in a big circus tent in 1987. For 10 years now he has been creating events and curating programmes for "German Arts" www.german-arts.com.

With "Son et Lumière" Kranich likes to mix illuminations of old buildings with unexpected music from different times and styles: classic, jazz, psychedelic, world, ambient et al. - all held together by a common sense of melancholia...
